

THE FINAL BARRIER AGAINST ABRASION, CHEMICALS AND HEAT

ARMATEX® FIRESTAR 70

ARMATEX® FIRESTAR 70 is a super heavyweight fiberglass fabric treated with a proprietary refractory mineral coating that greatly enhances the resistance to burn-through, flame impingement, abrasion, sparks and molten splash and corrosion. It also greatly improves the thermal properties of the fabric.

ARMATEX® FIRESTAR 70 is designed for use in welding protection and drop cloths, removable thermal insulation jackets, stress relieving blankets and thermal barriers.

AVERAGE PHYSICAL PROPERTIES

Coating	Proprietary refractory mineral coating
Color	Gold
Width, inches	40
Thickness, inches, nominal	0.125 (+/- 10%)
Weight, oz/sq yd, nominal	70 (+/- 10%)
Temperature Rating	
Base Fabric	1000° F • 538° C
Coated Fabric	1500° F • 815° C, 30 mins 1 side
	2000° F • 1093° C, transient exposure
Standard Roll Size	25 LY x 122 lbs.
