

THE FINAL BARRIER AGAINST ABRASION, CHEMICALS AND HEAT

ARMATEX® QF 40 REFRACTORY CLOTH

ARMATEX® QF Coated Fabrics are comprised of a fiberglass fabric impregnated on both sides with a proprietary, high-temperature resistant refractory compound. ARMATEX® QF Coated Fabrics are used in applications that require increased flame resistance, as well as chemical and abrasion resistance. Excellent for thermal insulation applications, these fabrics are excellent for use wherever severe conditions exist.
