

## AGAINST ABRASION, CHEMICALS AND HEAT

## ARMATEX® FIRESTAR 35

ARMATEX® FIRESTAR 35 is a heavyweight fiberglass fabric treated with a proprietary refractory mineral coating that greatly enhances the resistance to burn-through, flame impingement, abrasion, sparks and molten splash and corrosion. It also greatly improves the thermal properties of the fabric.

ARMATEX® FIRESTAR 35 is designed for use in welding protection and drop cloths, removable thermal insulation jackets, stress relieving blankets and thermal barriers.

## AVERAGE PHYSICAL PROPERTIES

Coating	Proprietary refractory mineral coating
Color	Gold
Width, inches	60
Thickness, inches, nominal	.060 (+/- 10%)
Weight, oz/sq yd, nominal	35 (+/- 10%)
Temperature Rating	
Base Fabric	1000° F • 538° C
Coated Fabric	1500° F • 815° C, 30 mins 1 side
	2000° F • 1093° C, transient exposure
Standard Roll Size	25 LY x 95 lbs.
